

ANIMAL COMMUNICATION

Today we will be learning animal communication in the form of telepathy. Telepathy is the transference of pictures, words, and feelings. These are highlights from Joan's book: Animal Communication 101

THE ESSENCE

Looking for the animal's essence or archetype is another nice way to deepen your connection. Appreciating and acknowledging the animal's personality quirks gives you good information about their behavior as well. The essence of an animal is how its persona shows up. I also sometimes refer to it as the archetype the animal embodies.

If you think of the soul as a continuum among all beings, the essence is how the soul shows up in this species and this individual animal. The essence is about the animal's qualities: Is he a mama's boy? Is she independent and aloof?

THESE ARE A FEW OF MY FAVORITE THINGS

Asking "What are your favorite things?" forges a positive connection with the animal; you're connecting around what they love the most. Then, if you look in the closet and find a repressed traumatic memory and go on to ask deeper or more troubling questions—such as "Why are you afraid of men who wear hats?"—after you've explored that question the animal has a positive and peaceful place to reconnect with you.

ABOUT JOAN

Animal communicator, TEDx speaker, Hay House author, educator and animal parent, Joan Ranquet leads an inspired life. It's no surprise MSN deemed her as one of the "Top 25 People Who Do What They Love."

Joan has connected with animals professionally for over twenty-five years, she's connected with them personally as long as she can remember. Her calling has led her to work with hundreds of thousands of pet owners, trainers, barn managers, and vets - teaching animal communication through workshops, wildlife retreats, and private sessions.

For eight years, Joan spearheaded trips to swim with wild dolphins, she's facilitated excursions to South Africa and Borneo, and she now leads eco wildlife adventures with endangered species. Joan shares her expertise and experience all over the country speaking on animal communication, human/animal relationships, energy healing, and marine wildlife.

Joan's hands-on process troubleshoots behavioral and medical issues, stimulates healing (in conjunction with conventional treatment), and deepens her client's ability to care for and understand their animals. She believes these aren't gifts for the select few and teaches tangible skills that guide her students to consistent and confident communication with animals.

In 2009, Joan founded CWALU (Communication With All Life University), a certification program for animal communicators and energy healers. She is the author of *Energy Healing for Animals (Sounds True)*, and *Communication with all Life (Hay House)* and is an active contributor to *Dharma of Dogs (Sounds True)*. Deemed "Celebrity Animal Communicator" in an AMC Channel documentary, Joan has been featured in dozens of media including *The Hollywood Reporter*, *Pet Nation on Dateline NBC*, *The Today Show on NBC*, *Good Morning America on ABC*, *Animal Planet*, *The National Enquirer*, and *The Los Angeles Times* to name a few.

Today Joan lives on a farm in the gorgeous hills of southern California with her devoted animal family: 2 horses, 2 dogs, and 4 cats. She donates her time toward animal rescue missions, therapeutic riding centers, and is an avid fundraiser for organizations that aid natural disasters and endangered species.
